

Joint procurement of Responsive Repairs and Voids Contractor

Eden Housing Association and Castles & Coasts Housing Association are jointly procuring their Responsive Repairs and Void Maintenance Contracts.

As both Associations' contracts were due to expire at the same time, and have housing stock in the same areas, it made sense to work with Cumbria Housing Partners to jointly procure. The successful contractors will provide responsive maintenance services and void repair services within the North West of England. The work will be within two geographical lots: **Carlisle and Eden** and **Allerdale, Copeland, South Lakeland, Barrow and Lancaster**.

For more information - the new contracts are advertised for tender via:
